EDITO

As several articles have previously mentioned, the Greek debt audit committee continues the task it had set itself. During the closing meeting of the September session, in reply to all the objections of those who hold that it would not have been possible to come to any other outcome than the austerity agreement and the ongoing destruction of the social victories that the Greek people had achieved, Eric Toussaint, the Scientific Coordinator of the committee said "If the Greek government had followed the recommendations of the Debt Truth Committee the situation would not have been catastrophic, actually there is no doubt that it would have been significantly better". After imposing humiliating policies of adjustment an agreement on restructuring the Greek debt may be possible. However, Eric Toussaint points out that the July agreement shows no trace of such an

understanding. Even if it did so restructuring too is a trap that countries should avoid falling into.

At the end of the meeting the committee issued a press release that declared the third Memorandum and the debt that was linked to it, illegal, illegitimate, odious and unsustainable.

On 16 October, European activists opposed to the TTIP will hold the European Citizens' Assembly, in Brussels, on debt. This Assembly, that will be attended by many European social movements and members of citizens' audit committees, aims at building a strategic issue on debt, austerity and the alternatives to these processes in Europe.

SPECIAL GREECE

On the 13 July 2015, In spite of the enormous 62% victory of the NO/OXI to austerity in the Greek 5 July referendum, the creditors imposed an unacceptable agreement on the Greek Prime Minister. Then, during the night of the 15 to 16 July the Greek parliament ratified this new memorandum with the support of the right wing parties. The Syriza party being split. The intermediate report of the Greek Debt Truth Commission presented on the 17 and 18 June 2015 established that the debt demanded from Greece is almost entirely, illegitimate, Illegal and odious. It is also unsupportable. Until now the findings of the report have not been used by the Greek Government. In the months and years ahead the Greek debt will be at the centre of European issues. The combat for debt justice for the Greek people is far from over. International solidarity with the resistance of the Greek people must be strengthened. (...)

As you know, CADTM has been deeply involved in the struggle for the abolition of the debt demanded from Greece. It was under the impetus of CADTM that a commission to audit Greek debt was created in March 2015. This auditing task is achieved by the voluntary work of the commission members helped by numerous CADTM

members who have brought valuable assistance to the cause of bringing to light the truth about the Greek debt. Please support the CADTM.
