## EDITO

While the debate over COP21 Paris pops up, the French government at the behest of international capital is sparing no efforts to limit the space for democratic opinion building on the future of our planet. CADTM unequivocally condemns any such attempts to stifle peoples voices. While we express our solidarity with the victims of the Paris attack and their families, we denounce any attempt to use it by the governments of France or any other country to further their imperialist interests.

CADTM presents you various analyses on climate change and ecological degradation.

While Ukraine is caught in the crossfires of imperialism and expansionism, it is also squeezed by spiraling debt and is continuously being blackmailed by the IMF. We present you articles on the Ukrainian debt and also on the influence of IMF and IFIs in Central and East Europe.

In spite of the capitulation of the Alexis Tsipras government, the struggle continues in Greece and Europe. A few articles informs us about things that the mainstream media refuses to publish. Finally, a struggle in South Africa started by students against the steep fees and students debt is extending to new sectors with workers and others joining them in struggle. for the public.

As you know, CADTM has been deeply involved in the struggle for the abolition of the debt demanded from Greece. It was under the impetus of CADTM that a commission to audit Greek debt was created in March 2015. This auditing task is achieved by the voluntary work of the commission members helped by numerous CADTM members who have brought valuable assistance to the cause of bringing to light the truth about the Greek debt. Please support the CADTM.
