**"GIVE US GUARANTEES ON JOBS AND
DO NOT EXIT PREMATURELY FROM
HIGH PUBLIC SPENDING"**

3 February 2010

***On the eve of the Informal European
Summit, to be held on 11th***

**European Trade Union Confederation [ETUC]
Confédération européenne des syndicats [CES]**

***February, a delegation of the European Trade Union Confederation (ETUC) will
visit the President of the European Council Herman Van Rompuy to set out
workers' expectations and demands. The ETUC will ask guarantees for
employment and social protection.***

***The trade union's delegation includes the ETUC President, Wanya Lundby-
Wedin, the ETUC General Secretary, John Monks and the leaders from Spanish,
Belgian and Hungarian trade unions***[\[1\]](#).

John Monks will declare to the President of the European Council: *"We are extremely
concerned that Governments will exit prematurely from the stimuli packages which have
been applied since the crisis started and that precipitate action will retard growth and
further increases in unemployment. European trade unions sent a letter to their Heads of
government with a clear message: You have saved the banks, now save the jobs".*

The ETUC demands that heads of Government and the European authorities:

- Maintain high levels of spending to promote growth and as part of an expanded EU recovery Plan, inject an extra 1% of Growth Domestic Product to boost jobs for the unemployed. The ETUC asks for investments in strong industrial policies and in policies for research and innovation. The training and research policies must be reinforced to ensure quality jobs in a long run Europe must on the other hand develop its own growth strategy based on green growth.
- Give a guarantee in 2010 to all young people of jobs and learning opportunities so that we do not have a wasted generation.
- Keep up purchasing power and invest in welfare states and public services which have been crucial stabilisers in preventing the recession becoming a depression. Public spending must not be seen only as a cost.
- Combat inequality and growing precarious work ensuring that posted and migrant workers are treated equally to other workers.
- Regulate effectively financial markets to prevent such a disaster happening again.

John Monks added: *"We hope that Heads of Governments and European authorities will
give guarantees to workers and hope that these guaranties will be confirmed at the
European Summit of 11th February and at the Spring Summit".*

*The ETUC exists to speak with a single voice, on behalf of the common interests of workers, at European level.
Founded in 1973, it now represents 82 trade union organisations in 36 European countries, plus 12 industry-based
federations.*
