Onderwerp: ETUC strongly supports MEPs' call for a European "New Deal" to foster investment and sustainable jobs

**ETUC strongly supports MEPs' call
for a European "New Deal" to
foster investment and sustainable
jobs**

8 July 2011

***Adopted this week in Strasbourg,
Pervenche Berès' report, the final
report from Parliament's Special
Committee on the Financial,
Economic and Social Crisis, makes a clarion call for stronger co-operation and
'more Europe' to tackle the current crisis, supporting long-held European Trade
Union Confederation (ETUC) demands.***

**European Trade Union Confederation [ETUC]
Confédération européenne des syndicats [CES]**

The ETUC fully endorses its recommendations for a European "New Deal" to foster innovation, job creation and R&D investment, so as to give an urgently-needed boost to European competitiveness ensuring sustainable, green growth. Recommendations on tax policy and the promotion of euro-bonds reflect ETUC demands for a constructive exit from the crisis rather than the current proposals for aggressive austerity and pressure on working people across Europe.

"At last European institutions and politicians are endorsing and demanding an alternative agenda, based on jobs and investment", stated ETUC General Secretary Bernadette Ségol.

"Together with MEPs, we will now hold the Commission and Council to account on these demands. This is crucial to create a European solution and avoid a renationalisation of policies which will only intensify the social damage, fuel xenophobia and provoke conflict".

The ETUC exists to speak with a single voice, on behalf of the common interests of workers, at European level. Founded in 1973, it now represents 83 trade union organisations in 36 European countries, plus 12 industry-based federations.
