**Restructuring: ETUC calls for
European action to tackle job
losses**

**Today, workers in ArcelorMittal in
Seraing are protesting against the
unilateral management decision
to close sites. In recent weeks,**

**Nokia workers in Romania have faced a similar situation. The European Trade
Union Confederation (ETUC) calls on the Commission and EU institutions to
urgently bring forward proposals to address the increase in industrial restructuring
in Europe.**

"For the first time for many years, through the Europe 2020 strategy, the EU has put industrial policy back on the political agenda. In yet rhetoric on managing and anticipating change is not translating into action for workers hit by short-term, profit-led management decisions", stated ETUC Confederal Secretary Judith Kirton-Darling. "The ETUC stands together with the workers in Seraing and across Europe, calling for investment in people and innovation through concrete EU industrial policies, and against the siphoning off of profits and deindustrialization".

The ETUC exists to speak with a single voice, on behalf of the common interests of workers, at European level. Founded in 1973, it now represents 84 trade union organisations in 36 European countries, plus 12 industry-based federations.
