uses	Occupational disease					
gelatinizing & waterproofing agent in explosives, modifier for smokeless powder, plasticizer, dye, intermediate	Nitrated derivatives of aromatic hydrocarbons					
cleaner, degreaser, solvent, paints, stripper, adhesive, repellent, pesticide, lubricant, cooler, insulation agent, additive, glue, flame retardant, plasticizer, leather coating, sealer, binder	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
intermediate, grouting agent, sewage and wastewater treatment agent, papermaking and pulp aid, mineral processing agent, crude oil production, cosmetic additive, soil and sand stabilisation, coating, paints, textile processing, pesticide, cross-linking agent, adhesive, conditioning agent, flocculant, electrophoresis agent, thickener, dye acceptor, solvent, binder, corrosion inhibitor, filler, impregnation material, reprographic agent, surface-active agent, viscosity adjustor, cleaner, construction material, reagent, complexing agent, precipitant, retention aid, dressing agent, primer, thickening agent, poly-electrolyte, sludge treatment preparation						
pesticide, pharma, dye, ice-nucleating agent, lubricant	Cadmium or compounds thereof					
refractory agent, intermediate, electrolysis agent, treatment and coating of metals agent, sealer, cleaner, ingredient in cement, density and texture improver, reagent, indicator, tanning agent, dressing agent, mordant, pesticide, coloring agent, oxidizer, corrosion inhibitor, depolarizer, cross-linking agent, wood preservative, paints, decorating porcelain, bleaching agent, waterproofing agent, depolarizer, pharma, brass pickling, explosive, glue, adhesive, synthetic perfume, alloy, lubricant, additive	Chromium or compounds thereof					

preservative, oxidising and conditioning reagent, enhance heat resistance, refractory agent, intermediate, colouring agent, paints and plastics, ceramics, cements, papers, rubbers, composition floor covering, surface finishing agent, anti-corrosion agent, hardness agent, mordant, tanning agent, fixing baths in photographic, catalyst, fuel additive, fabrication of magnetic tapes, cooling "fluid", aircrafts, motorcars, barrels, buses, cans, electrical appliances, flatware, hardware, lumber, pharma, railroad equipment, ships	Chromium or compounds thereof					
coating agent, corrosion inhibitor, finishing agent, mordant, paints, drilling mud additive, component of cells for chlorate, tanning agent, pharma, aluminium etchant ingredient, paint stripper, cutting fluid, intermediate, reagent, preservative, metal finishing, mordant, pesticide, water treatment, oxidizer, bleaching agent, refining petroleum, hardener, colorant, electroplating agent, surface treatment, absorbent, galvano-technical agent	Chromium or compounds thereof					
additive, flame retardant	Ethers or their halogenated derivatives					
indicator, reagent, colorant, cathartic, corrosion inhibitor, pesticide, pharma	Phenols or counterparts or halogenated derivatives thereof					
Invisible ink, humidity & water indicator, temperature indicator, electroplating agent, paints, fertilizer & feed additive, absorbent, intermediate, lubricant, dye mordant, stabilizer, pesticide, pharma, corrosion inhibitor, electroplating agent, colouring agent, reagent, process regulator						
preservative, pharma, metal finishing, intermediate, electroplating agent, stripping agent, photography agent, hardener, oxidant, surface treatment, corrosion inhibitor, reagent, absorbent, antiadhesive agent, impregnation material, food agent, flux agent, salt for galvanic baths, pickling agent, catalyst	Chromium or compounds thereof					
drier, discoloring preventer, corrosion inhibitor, electroplating agent, pharma, process regulator, surface treatment, conductive agent, textile auxiliar, paper additive, lubricant, catalyst, foam stabilizer, bleaching agent, anodizing, paints, temperature indicator, food agent, fertiliser	Esters or their halogenated derivatives					
solvent, constituent, pesticide, intermediate, paints, preservative oil, filler	Anthracene or compounds thereof					

colorant, intermediate	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
catalyst, intermediate, electroplating agent, process regulator, neutralizing compound, surface treatment, corrosion inhibitor, flotation and smelting agent, mordant, sealer, coating, absorbent, pesticide, reagent, colouring agent, cooling agent, additive, molding sand, paints, decolorizing agent, propellant, cleaner, cosmetic, pesticide, blackener, precipitant, In lithium primary batteries	Nickel or compounds thereof					
manufacture of textiles, wood and paper products, intermediate						
pesticide, intermediate, plasticizer, rubber peptizing agent, additive	Halogenated derivatives of the aromatic hydrocarbons					
intermediate, reagent, pharma, ethylating agent, accelerator, finishing agent, dye-set agent	Esters or their halogenated derivatives					
food agent, pesticide	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
stabilizer, intermediate, adhesive, surface-active agent	Ethers or their halogenated derivatives not referred to under heading 1.120 of Annex I					
antioxidant, plasticizer, intermediate, flame retardant, pesticide, process regulator, paints, adhesive, softener, construction material, stabilizer, lubricant, additive, surface treatment, filler, anti-static agent, viscosity adjustor, insulating material, hydraulic fluid, corrosion inhibitor, hardener, joint-less floor, curing agent, casting material, brake grease, primer, stopping material, catalyst, paper additive	Phenols or counterparts or halogenated derivatives thereof					

pesticide, varnish, drier, pigment, reagent, mordant, water repellent, mildew- and rot-proofing agent, coating agent, astringent, pharma, stabilizer, manufacture of rubber and plastic products, antiknock agent, lubricant, intermediate, blending agent, octane improver	Lead or compounds thereof					
developer, stabilizer, antioxidant, solvent, cutting fluid, bleaching and depigmenting agent, intermediate, reagent, polymerization inhibitor, pharma, reprographic agent, adhesive, photochemical, construction material, filler, colouring agent, corrosion inhibitor, pesticide, fixing agent, inks, stopping material, moulding compound, plastic construction material, dental products, putty compound	Ketones or their halogenated derivatives					
filler, paints, pesticide, adhesive, construction material, process regulator, surface treatment, antiadhesive agent, tightening material, preservative, additive, lubricant, impregnation agent	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
intermediate, paints, colouring agent	Nitrated derivatives of aromatic hydrocarbons					
adhesive, electronic equipment component, inks, pesticide, solvent, cleaner, resin	Esters or their halogenated derivatives					
plasticizer, adhesive, plastisols, coating, colouring agent, paints, sealer, process regulator, filler, reprographic agent, binder, softener, hardener, tightening material, construction material, stabilizer, cleaner, lubricant, pesticide, additive	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, catalyst	Cadmium or compounds thereof					
stabilizer, metal finishing, pigment	Cadmium or compounds thereof					
pigment, coating	Lead or compounds thereof					
pesticide, additive, solvent, emulsifier, sterilizer	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, solvent	Encephalopathies or polyneuropathies due to organic solvents					

solvent, adhesive, lubricant, additive, cleaner, anti-freezing agent, paints, surface treatment, antiadhesive agent, construction material, base oil, activator, degreaser, fuel, impregnation material, filler, pesticide, reprographic agent, colouring agent, corrosion inhibitor, cutting fluid, aerosol propellant, polishing agent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
fuel, solvent, lubricant, additive, paints, cleaner, impregnation material, surface treatment, filler, pesticide, reprographic agent, colouring agent, corrosion inhibitor, cutting fluid, construction material, aerosol propellant, antiadhesive agent, polishing agent, wood preservative, anticorrosive, degreaser, under-seal material, pharma, sealer, defoaming agent, degreasing agent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					

abrasive, paints, solder, clutcher or braker linings, catalyst, cathode, flame retardant, flux, photochemical-sensitizing agent, sterilization indicator, mordant, oxidizer, flotation agent, heat stabilizer, pesticide, mean of recovering, cement, paste, vulcanizing agent, drier, lubricant, neutralizing agent, intermediate, antiperspirant/deodorant, inhibitor, discharge, ignition surface, insulating material, colouring agent, ceramic glazes, curing agent, adhesive, additive, corrosion inhibitor	Lead or compounds thereof					
adjuvant, process regulator, adhesive, cleaner, stabilizer, hardener	Phenols or counterparts or halogenated derivatives thereof					
emulsifier, colouring agent, pharma, intermediate, food additive, preservative, pesticide	Tar + Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol + Organic acids					
foaming agent, resin	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
additive, degreaser, solvent, cleaner	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
pesticide, paints, preservative oil, moisture seal, manufacture of fabricated metal products, building and repairing of ships	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol + Tar					
paints, moisture seal	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol + Tar + Pitch					
stabilizer, reagent, reducing agent, intermediate	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					

intermediate, curing agent, ingredient, pigment	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
pesticide, intermediate, wood preservative, stabilizer, catalyst, pharma						
cleaner, degreaser, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
solvent	Aliphatic nitrated derivatives					
stabilizer, antioxidant, polymerization inhibitor, intermediate, protection of rubbers against oxidation, ozone, flexcracking, adhesive	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
solvent, paints	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
intermediate, paints, corrosion inhibitor, thinner	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
cutting fluid, pesticide, solvent	Carbon disulphide					
pesticide, refrigerant and fire extinguisher, solvent, pharma	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
solvent, intermediate, preservative, electrolytic agent, reprographic agent, inks	Nitrated derivatives of aromatic hydrocarbons					
solvent, cleaner, filler	Vinylbenzene					
catalyst, pesticide						
cutting fluid						
solvent	Dimethylformamide					
pesticide, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
pesticide, intermediate, modifier, catalyst	Acrylonitrile					
pesticide, active ingredient, solvent, scouring agent, intermediate, surfactant, degreaser, cleaner, additive, lubricating oil, flotation agent, pharma, cutting oil, agent for removing carbonization deposits, wood preservative, photographic developer, disinfectant, synthetic food flavor, fiber treatment agent, tanning agent, antioxidant	Alcohols or their halogenated derivatives					

Lubricating oil, additive, stabilizer, adhesive, reprographic agent, solvent, inks, pesticide, catalyst, vulcanization accelerator, process regulator, welding agent	Esters or their halogenated derivatives					
intermediate, adhesive, binder, paints, surface treatment, construction material, filler, cleaner, reprographic agent, impregnation agent, pesticide, solvent, corrosion inhibitor, colouring agent, hydraulic fluid, additive, polishing agent, cement, coating agent, dressing agent, stopping material, tightening material, primer, thinner, reactive diluent, cross-linking agent, lubricant, base oil, hardener, dispersion agent, putty compound, caulking agent, viscosity adjustor, flame retardant, thickening agent, pharma, water-repellent, process regulator, antiadhesive agent, insulating material, toner, writing agent, moulding compound, casting material, resin, reagent, finishing agent, antistatic agent, stabilizer, emulsifying agent, precipitating agent, sensitizer, activator	Esters or their halogenated derivatives					
food agent, pesticide	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
food agent, pesticide, corrosion inhibitor, textile auxiliary	Organophosphorus esters					
pesticide, wood preservative, disinfectant						
intermediate, initiator	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
catalyst, solvent	Crude paraffin + Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
cleaner, solvent, fuel, degreaser	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					

fuel, lubricant, additive, paints, cleaner, impregnation agent, corrosion inhibitor, filler, surface treatment, pesticide, antiadhesive agent, aerosol propellant, cutting fluid, odour agent, solvent, ignition gas, degreaser, spot (stain) remover, polishing agent, friction-reducing additive, anti-setoff agent, base oil, ignition gas, stopping material, rust remover, friction agent, intermediate, standby and enricher gas	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
additive, hydrotropic agent, solvent, thickener, fuel, cutting fluid, lubricant, corrosion inhibitor, filler, surface-active agent, hydraulic fluid, foaming agent, paints, cleaner, process regulator, viscosity adjustor, antiadhesive agent, impregnation material, colouring agent, polishing agent, releasing agent, hardener, binder, adhesive, cooling agent, base oil, accelerator, friction-reducing additive, pesticide, activator, catalyst, degreaser, intermediate, underseal material, manufacture of wood, construction material, adjuvant, heat transferring agent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
cleaner, degreaser, solvent, fuel, additive, hydrotropic agent, thickener, foaming agent, binder, adhesive, filler, intermediate, vulcanizing agent,	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					

pharma, cleaner, fuel, lubricant, additive, paints, impregnation agent corrosion inhibitor, filler, surface treatment, pesticide, antiadhesive agent, aerosol propellant, cutting fluid, odour agent, solvent, ignition gas, degreaser, spot (stain) remover, polishing agent, friction-reducing additive, anti-setoff agent, base oil, stopping material, rust remover, hydraulic fluid, reagent, accelerator	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
lubricant, preservative, additive, pesticide, metal finishing, coating agent, cooler						
pesticide, flame retardant, plasticizer	Organophosphorus esters					
plasticizer, reprographic agent, construction material, adhesive, paints, softener, filler, inks, tightening material, sealer	Esters or their halogenated derivatives					
pesticide, cutting fluid	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
solvent	Aliphatic nitrated derivatives					
intermediate, preservative, solvent, corrosion inhibitor, decarboxylation reagent, pharma, extractor, construction material	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
stabiliser, pigment, semiconductor, process regulator, adhesive, hardener	Cadmium or compounds thereof					
solvent, intermediate, adhesive						
pesticide, sanitizer, preservative						
paints, flame retardant	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
flame retardant	Ethers or their halogenated derivatives					
intermediate, thermosetting resin, reagent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
pesticide, accelerator, retarder, plasticizer	Phenols or counterparts or halogenated derivatives thereof					

intermediate, paints	Phenols or counterparts or halogenated derivatives thereof					
paints, adhesive, process regulator, impregnation material, thinner, corrosion inhibitor, pharma						
intermediate, adhesive, filler, cleaner, construction material, paints, surface treatment, fuel additive, reprographic agent, process regulator, impregnation material, softener, antiadhesive agent, viscosity adjustor, pharma, insulating material, absorbent, ink, polishing agent, antifoaming agent, surfactant, sealer, casting material, solvent						
adjuvant, solvent, pesticide, polishing agent, disinfectant, degreaser, cleaner	methyl ether of methylene glycol / ethyl ether of ethylene glycol + Encephalopathies or polyneuropathies due to organic solvents					
intermediate, antifuming agent, dyestuff, surfactant, resin, pharma, pesticide, process regulator, filler, flux agent, anti-condensation agent, welding agent, grinding material, surface treatment, anti-freezing agent, photochemical, adhesive, reagent, lubricant	Alcohols or their halogenated derivatives					
corrosion inhibitor, catalyst, surface treatment	Chromium or compounds thereof					
pesticide, intermediate, oxidation inhibitor, refrigerant & extraction solvent, adhesive, aerosol propellant, additive	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
intermediate, adhesive, filler, plastic additive, colouring agent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
hardener, paints	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
cleaner, degreaser, solvent	Benzene or counterparts thereof					
alloy, welding agent, catalyst, intermediate	Beryllium (glucinium) or compounds thereof					
reducing agent, purification agent, intermediate, construction material, reagent, pharma, process regulator, welding agent, fuel, heat transferring agent, building material and additive	Carbon monoxide					
pesticide, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
cooler, lubricant, cleaner, coating agent, hardener, solvent, disinfectant, degreaser, preservative, pesticide, adhesive,	Formaldehyde					
intermediate, dye, fastness improver, treatment agent, pharma, adhesive, pesticide, food agent, filler, additive, resin	Halogenated derivatives of the aromatic hydrocarbons					

Blowing agent, aging & bleaching ingredient, foaming agent, catalyst, insulating material, construction material, cement filler, colouring agent, additive						
binder, adhesive, additive, elastomer, hardener, foaming agent, paints, process regulator, intermediate, construction material, filler, heat transferring agent, reagent, bleaching agent, hardener, joint-less floor, moulding compound, surface treatment, curing agent, casting material, primer, resin, sealer	Isocyanates					
reducing agent, corrosion inhibitor, intermediate, pharma, colouring agent, antioxidant, additive, lubricating agent, wood stain, photochemical, pharma, additive	Alcohols or their halogenated derivatives					
disinfectant	Alcohols or their halogenated derivatives					
reagent, catalytic hardener, activator, solvent, intermediate, stabilizer, curing accelerator, construction material, process regulator, adhesive, filler, stopping material, pharma, lubricant, plastic additive, corrosion inhibitor	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
dye, reagent, filler, stopping material	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
food agent	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
pesticide, lubricant, additive	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
cleaner, degreaser, solvent	Benzene or counterparts thereof					
additive, degreaser, solvent, cleaner, paints	Benzene or counterparts thereof					
degreaser, adhesive, fuel, solvent, cleaner	Crude paraffin + Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
cleaner, solvent, pesticide, degreaser, flavouring agent	Encephalopathies or polyneuropathies due to organic solvents					

modifier, intermediate, filler, adhesive, paints, reprographic agent, surface treatment, corrosion inhibitor, colouring agent, solvent, moulding compound, sensitizer, stopping material, dispersion adhesive	Esters or their halogenated derivatives					
surface treatment, photochemical, cleaner, corrosion inhibitor, electroplating agent, reducing agent, reprographic agent, stabilizer, developer	Esters or their halogenated derivatives					
food agent, pesticide, corrosion inhibitor, textile auxiliary	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
sealer, encapsulating agent, binder, adhesive, intermediate, paints, construction material, filler, surface treatment, reprographic agent, process regulator, colouring agent, flux agent, viscosity adjuster, corrosion inhibitor, bleaching agent, joint-less floor, moulding compound, hardener, curing agent, tightening material, primer	Ethers or their halogenated derivatives					
solvent	Ethers or their halogenated derivatives					
reactive diluent, paints, adhesive, filler, construction material, intermediate, odour agent, process regulator, floor covering material	Ethers or their halogenated derivatives not referred to under heading 1.120 of Annex I					
pesticide, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
cleaner, degreaser, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
pesticide, imbedding material, light sensitive etching agent, component in fire extinguishers	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
bleach agent, pesticide, solvent, cleaner, inks	Halogenated derivatives of the aromatic hydrocarbons					
cutting fluid, pesticide, pharma, adhesive, cosmetic, colouring agent, paints, cleaner, surface treatment, reagent, disinfectant, lubricant, conserving agent, intermediate, additive	Halogenated derivatives of the aromatic hydrocarbons					
additive, solvent, hardener, paints, construction material, adhesive, surface treatment, casting material, colouring agent	Isocyanates					
thinner, solvent	Ketones or their halogenated derivatives					
pesticide, cleaner	Naphthalene or naphthalene counterparts					
pesticide, pharma, wood preservative	Nitrated derivatives of phenols or their counterparts					
solvent	Organophosphorus esters					

intermediate, antioxidant, paints, adhesive, binder	Other aliphatic hydrocarbons					
cleaner, pesticide, bleach agent, solvent	Phenols or counterparts or halogenated derivatives thereof					
paints	Respiratory ailments caused by the inhalation of dust from cobalt					
pesticide, treatment and coating of metals						
catalyst, process regulator						
insolubilizing agent, reducing agent, intermediate, embalming agent, cross-linking agent, disinfectant, pesticide, preservative, adhesive, viscosity adjustor, construction material, filler, paints, cleaner, colouring agent, surface-active agent, photochemical, dustbinder, cement thickening agent, primer, activator, hardener, reagent						
paints, pesticide						
scruber, hardener, intermediate, pharma, corrosion inhibitor, surface-active agent, pesticide, accelerator, adhesive, photochemical, process regulator, reagent						
food agent, pesticide						
intermediate, pesticide, preservative, antiseptic, additive, surface treatment, paints, cleaner, polishing agent						
pesticide, lubricant, additive, cutting fluid, cleaner, surface treatment, paints, hydraulic fluid, reprographic agent, antiadhesive agent, colouring agent, corrosion inhibitor, cooling agent, preservative, hydraulic oil, disinfectant, inhibitor, transmission medium	Alcohols or their halogenated derivatives not referred to under heading 1.118 of Annex I					
pesticide, intermediate, heat transfer agent, dye, solvent	Diphenyl					
food agent, pesticide, corrosion inhibitor, textile auxiliaries	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
cutting fluid, colouring agent, antioxidant, pesticide, intermediate, pharma, perfume, lubricant	Naphthols or counterparts or halogenated derivatives thereof					
intermediate, pesticide, preservative, permanent-press resin, oil additive, finishing agent, bonding agent, construction material, adhesive, paints, surface treatment, filler, reprographic agent, flame retardant, cleaner, colouring agent, impregnation material, corrosion inhibitor, glazing material, enamel, polishing agent, reagent, dispersion agent						
alloying agent, pesticide, purification agent, intermediate, mordant, flotation reagent, ceramic enamels, paints, decolorizing agent, preservative, reagent, flame retardant	Arsenic or compounds thereof					

pesticide, intermediate, soldering agent, tanning agent, cleaner, aging agent, curing agent, buffer, alkalizing agent, emulsifying agent, fiberglass insulation agent, enamel, fertilizer, corrosion inhibitor, bleaching agent, detergent, oxidizer, pharma, cosmetic, preservative, adhesive, wicks, electric condensers, anti-freezing agent, photochemical, surface treatment, lubricant, additive, fixing agent, reprographic agent, reagent, cooling agent, disinfectant, preservative, personal care products, metal working fluids, water treatment, hardener, flux agent, slag formation agent, flame retardant, abrasive, cement, catalyst/inhibitor, colouring agent, construction material						
binder, additive, pesticide, paints, moisture seal, filler	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol + Tar + Pitch					
insulating fibre, flame retardant, aircraft/aerospace heat shield, catalytic converter, metal reinforcement, brake pad, air bag, fiber, polishing glass, smoothing bisque ware, abrasive, intermediate, semiconductor, deoxidant, refractory agent, ceramics, construction material, grinding material, filler, surface treatment, paints, process regulator, absorbent, odour agent, cleaner, fireproof cement, cast compound	Broncho-pulmonary ailments caused by man-made mineral fibres					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent, hydrotropic agent, pesticide, adhesive, additive	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
corrosion inhibitor, colorant, reagent, paints, filler, adhesive, preservative, protective chemical, catalyst, activator	Chromium or compounds thereof					
pesticide, preservative, pigment, pharma	Arsenic or compounds thereof					
vulcanization accelerator, process regulator, paints, cleaner, intermediate	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
colorant	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
solvent	Encephalopathies or polyneuropathies due to organic solvents					

solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent	Halogenated derivatives of the aromatic hydrocarbons					
pesticide, wood preservative						
cleaner, pesticide, preservative						
byproduct, solvent, paints, cleaner, reprographic agent, pesticide, colouring agent, surface treatment, filler, corrosion inhibitor, flux agent, under-seal material, degreaser, polishing agent, hardener, thinner	Alcohols or their halogenated derivatives					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, solvent	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
solvent						
tanning and dressing agent, intermediate, fuel, paints, manufacture of wood, articles of straw and plaiting material, heating agent, cleaner	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
lubricant, additive, cutting fluid, hydraulic fluid, corrosion inhibitor, antiadhesive agent, filler, oils, cooling agent, accelerator	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					

lubricant, additive, hydraulic fluid, corrosion inhibitor, cutting fluid, surface treatment, anti-freezing agent, antiadhesive agent, bleaching agent, cleaner, complexing agent, flotation agent, stabilizer, construction material, filler, rust remover, textile auxiliaries, reagent, fertilizer, transmission medium, de-icing agent, activator, absorbent, accelerator, intermediate, oils, vulcanizing agent, cooling agent, anti-foaming agent, dispersion adhesive, pesticide	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
corrosion inhibitor, surface treatment, lubricant, additive, paints, base oil, under-seal material, polishing agent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
impregnation material, corrosion inhibitor, surface treatment, anti-set-off and antiadhesive agent, polishing agent, anticaking agent, under-seal material	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
solvent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
semiconductor, infrared emitter	Arsenic or compounds thereof					
photographic emulsion, colorant, intermediate	Cadmium or compounds thereof					
solvent	Crude paraffin + Mineral and other oils					
colouring agent, paints, reprographic agent, construction material, filler, process regulator, adhesive, hardener, resin, binder	Halogenated derivatives of the aromatic hydrocarbons					
pesticide, preservative	Mineral and other oils					
lubricant, additive, corrosion inhibitor, flotation agent, foaming agent	Mineral and other oils					
polishing agent, pesticide, molding sand, paints	Silicosis					
pesticide, oxidizer, maturing agent, dough conditioner, food additive, improving agent, reagent, cleaner, neutralizer or oxidizer						
flame retardant	Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
pesticide, molding sand, radiation equipment	Anthracene or compounds thereof					

plasticizer	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
intermediate, filler, construction material, adhesive, additive	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
solvent, pesticide, intermediate, transformer fluid, dye carrier, coolant, dye, lubricant	Halogenated derivatives of the aromatic hydrocarbons					
peptizing agent, intermediate	Thiophenols or counterparts or halogenated derivatives					
water treatment, rubber accelerator, intermediate, corrosion inhibitor, adhesive, bleaching agent, cleaner, lubricant, additive, buffer, process regulator, reducing agent	Aliphatic amines and halogenated derivatives thereof					
sequestrant, adjuvant, cleaner	Aliphatic nitrated derivatives					
food additive, flavoring agent, intermediate, pharma, plasticizer, cleaner, paints, pesticide, odour agent, surface treatment, solvent, disinfectant, perfume, polishing agent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
intermediate, stabilizer, corrosion inhibitor, cleaner, softener, surface treatment, rinsing agent, water softener	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
flame retardant	Antimony and derivatives thereof					
pesticide, intermediate, food preservative, corrosion inhibitor, anti-oxidant and emulsifier	Aromatic acids					
flame retardant, intermediate	Aromatic acids - aromatic anhydrides or their halogenated derivatives					
antioxidant, polymer stabilizer, adhesive, vulcanizing agent, reagent	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
vulcanization accelerator, activator, process regulator, welding agent, adhesive, filler, tightening material, adhesive, hardener	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
vulcanizing agent	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
fertilizer	Broncho-pulmonary ailments and cancers associated with exposure to bitumen					

pesticide, solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
adjuvant, solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent, developer	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, cleaner, solvent	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, solvent	Encephalopathies or polyneuropathies due to organic solvents					
cutting fluid, solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent, binder, pharma, disinfectant, additive, intermediate, reactive thinner, adhesive, reprographic agent, paints, surface treatment, cleaner, lubricant, pesticide, preservative, colouring agent, hardener	Encephalopathies or polyneuropathies due to organic solvents					
sunscreen ingredient, intermediate	Esters or their halogenated derivatives					
construction material, filler, intermediate, paints	Esters or their halogenated derivatives					
pesticide, solvent	Furfural					
molding sand	Naphthalene or naphthalene counterparts					
intermediate, solvent, construction material, process regulator, reagent, adhesive, filler, paints, flooring material, hardener, curing agent, moulding compound, plastic additive, cast compound	Naphthalene or naphthalene counterparts					
pesticide, cutting fluid	Nitrated derivatives of phenols or their counterparts					
cosolvent, defoamer, drier, gelling agent, catalyst, heat stabilizer, intermediate, corrosion inhibitor, process regulator, anti-freezing agent, cutting fluid, cleaner, surface treatment, paints, filler, impregnation material, pesticide, electroplating agent, fuel additive, food agent, cooling agent, polishing agent	Organic acids					

flame retardant, plasticizer, reprographic agent, lubricant, additive, softener, adhesive, paints, inks, cracking indicator	Organophosphorus esters					
pesticide, flame retardant	Phenols or counterparts or halogenated derivatives thereof					
lubricant, additive, stabilizer, antioxidant	Phenols or counterparts or halogenated derivatives thereof					
pesticide, intermediate, disinfectant, solvent, pharma, plasticizer, additive, lubricant and gasoline, wetting agent, dyestuff, antioxidant	Phenols or counterparts or halogenated derivatives thereof					
pesticide, intermediate, reagent	Phenols or counterparts or halogenated derivatives thereof					
intermediate, construction material, adhesive, paints, flooring material	Phosphorus or compounds thereof					
polishing agent, additive, colorant	Soot					
adjuvant						
construction material, paints, colouring agent, process regulator, plastic construction material						
paints						
pharma, odour agent, colouring agent, process regulator, food agent, additive						
intermediate, adhesion promotor-priming agent, blocking agent, protective layer, coating agent, antifoam, antifatulent agent, lubricant, paints, surface treatment, cleaner, impregnation material, pharma						
pesticide, additive, inhibitor, preservative						
stabilizing agent rust-inhibiting agent, lubricant and fuel additive, polymerization catalyst, hydrochloric acid scavenger, intermediate						
pesticide, paints						
alloying agent, reagent, corrosion inhibitor, catalyst, pigment, intermediate, process regulator, heat transferring agent, softener, feed additive, ceramic material						
adhesive, solvent						
synthetic flavor, adjuvant, alcohol denaturant, intermediate, adhesive, reprographic agent, paints, construction material, surface treatment, cleaner, pharma, filler, cutting fluid, tanning agent, cement ink, cooling agent, aroma booster, resin, stopping material, primer						
pesticide, intermediate, warning agent, alcohol denaturant, stabilizer, solvent, tear gas, fuel-gas, tanning agent, odorant						
flame retardant, intermediate, hardener, adhesive, binder						
manufacture of textiles, wood & articles of straw and plaiting material, intermediate						

pesticide, food agent						
cleaner, degreaser, solvent	Acetone					
solvent	Acetonitrile					
pesticide, odour agent, cleaner, absorbent, surface treatment, cosmetic, impregnation material, aerosol propellant, pharma, paints, degreaser, sanitation agent, polishing agent, air cleaner, disinfectant	Alcohols or their halogenated derivatives not referred to under heading 1.118 of Annex I					
feromone, pesticide, perfume, repellent	Alcohols or their halogenated derivatives not referred to under heading 1.118 of Annex I					
pesticide, solvent, emulsifier, stabilizer, inhibitor, pharma, reagent, intermediate, process regulator, paints, surface treatment, corrosion inhibitor, lubricant, additive, adhesive, reprographic agent, construction material, electroplating agent, colouring agent, photochemical, filler, hardener, curing agent, oils, caulking compound	Aliphatic amines and halogenated derivatives thereof					
solvent	Aliphatic amines and halogenated derivatives thereof					
solvent	Aliphatic amines and halogenated derivatives thereof					
intermediate, corrosion inhibitor, curing agent, surfactant, soap, water treatment, adhesive, process regulator, paints, cleaner, anti-static agent, construction material, odour agent, fuel additive, hardener, activator	Aliphatic amines and halogenated derivatives thereof					
intermediate, curing agent, construction material, paints, process regulator, adhesive, surface treatment, filler, anti-static agent, corrosion inhibitor, viscosity adjustor, hardener, joint-less floor, moulding compound, stopping material, primer, casting material, cement	Aliphatic amines and halogenated derivatives thereof					
additive, hardener	Aliphatic amines and halogenated derivatives thereof					
curing agent, intermediate, adhesive, process regulator, filler, flux agent, fuel additive, insulating material, reagent, viscosity adjustor, construction material, paints, corrosion inhibitor, hardener, curing agent	Aliphatic amines and halogenated derivatives thereof					
paints, adhesive, construction material, intermediate, cleaner, additive	Aliphatic amines and halogenated derivatives thereof					
pesticide, water treatment	Aliphatic amines and halogenated derivatives thereof					
intermediate, reagent, colouring agent, corrosion inhibitor, pharma, process regulator, solvent	Aliphatic amines and halogenated derivatives thereof					

pharma, intermediate, construction material, paints, process regulator, viscosity adjustor, adhesive, solvent, filler, surface treatment, corrosion inhibitor, flux agent, heat transferring agent, hardener, curing agent, protective chemical, dyeing auxiliar, dispersion agent, casting material, putty compound	Aliphatic amines and halogenated derivatives thereof					
process regulator, construction material, paints, filler, adhesive, joint-less floors, curing agent, hardener, intermediate	Aliphatic amines and halogenated derivatives thereof					
explosive	Aliphatic nitrated derivatives					
cleaner, surface treatment, intermediate, pharma, odour agent, absorbent, polishing agent, activator, degreasers, solvent	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
diluent, flexibilizer, adhesive, construction material, paints, filler, surface treatment, cleaner, casting material, hardener	Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
curing agent, rubber retarder, scorch inhibitor, plasticizer, hardener, intermediate, pesticide, reagent, softener, tanning agent, light- and heat-stabilizer, construction material, paints, adhesive, corrosion inhibitor, impregnation material, colouring agent, surface treatment, reprographic agent, vulcanizing agent, filler, preservative, stopping material, binder	Aromatic acids - aromatic anhydrides or their halogenated derivatives					
plasticizer, curing agent, resin, intermediate, paints	Aromatic acids - aromatic anhydrides or their halogenated derivatives					
adhesive, viscosity adjustor, paints, heat transferring agent, process regulator, curing agent, manufacture of basic metal, electrical machinery and apparatus and other transport equipment, intermediate, anti-scorching agent, filler, stopping material	Aromatic acids - aromatic anhydrides or their halogenated derivatives					
flame retardant, adhesive, cutting fluid	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
stabilizer	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					
solvent, pesticide	Aromatic amines or aromatic hydrazines or halogenated, phenolic, nitrified, nitrated or sulfonated derivatives thereof					

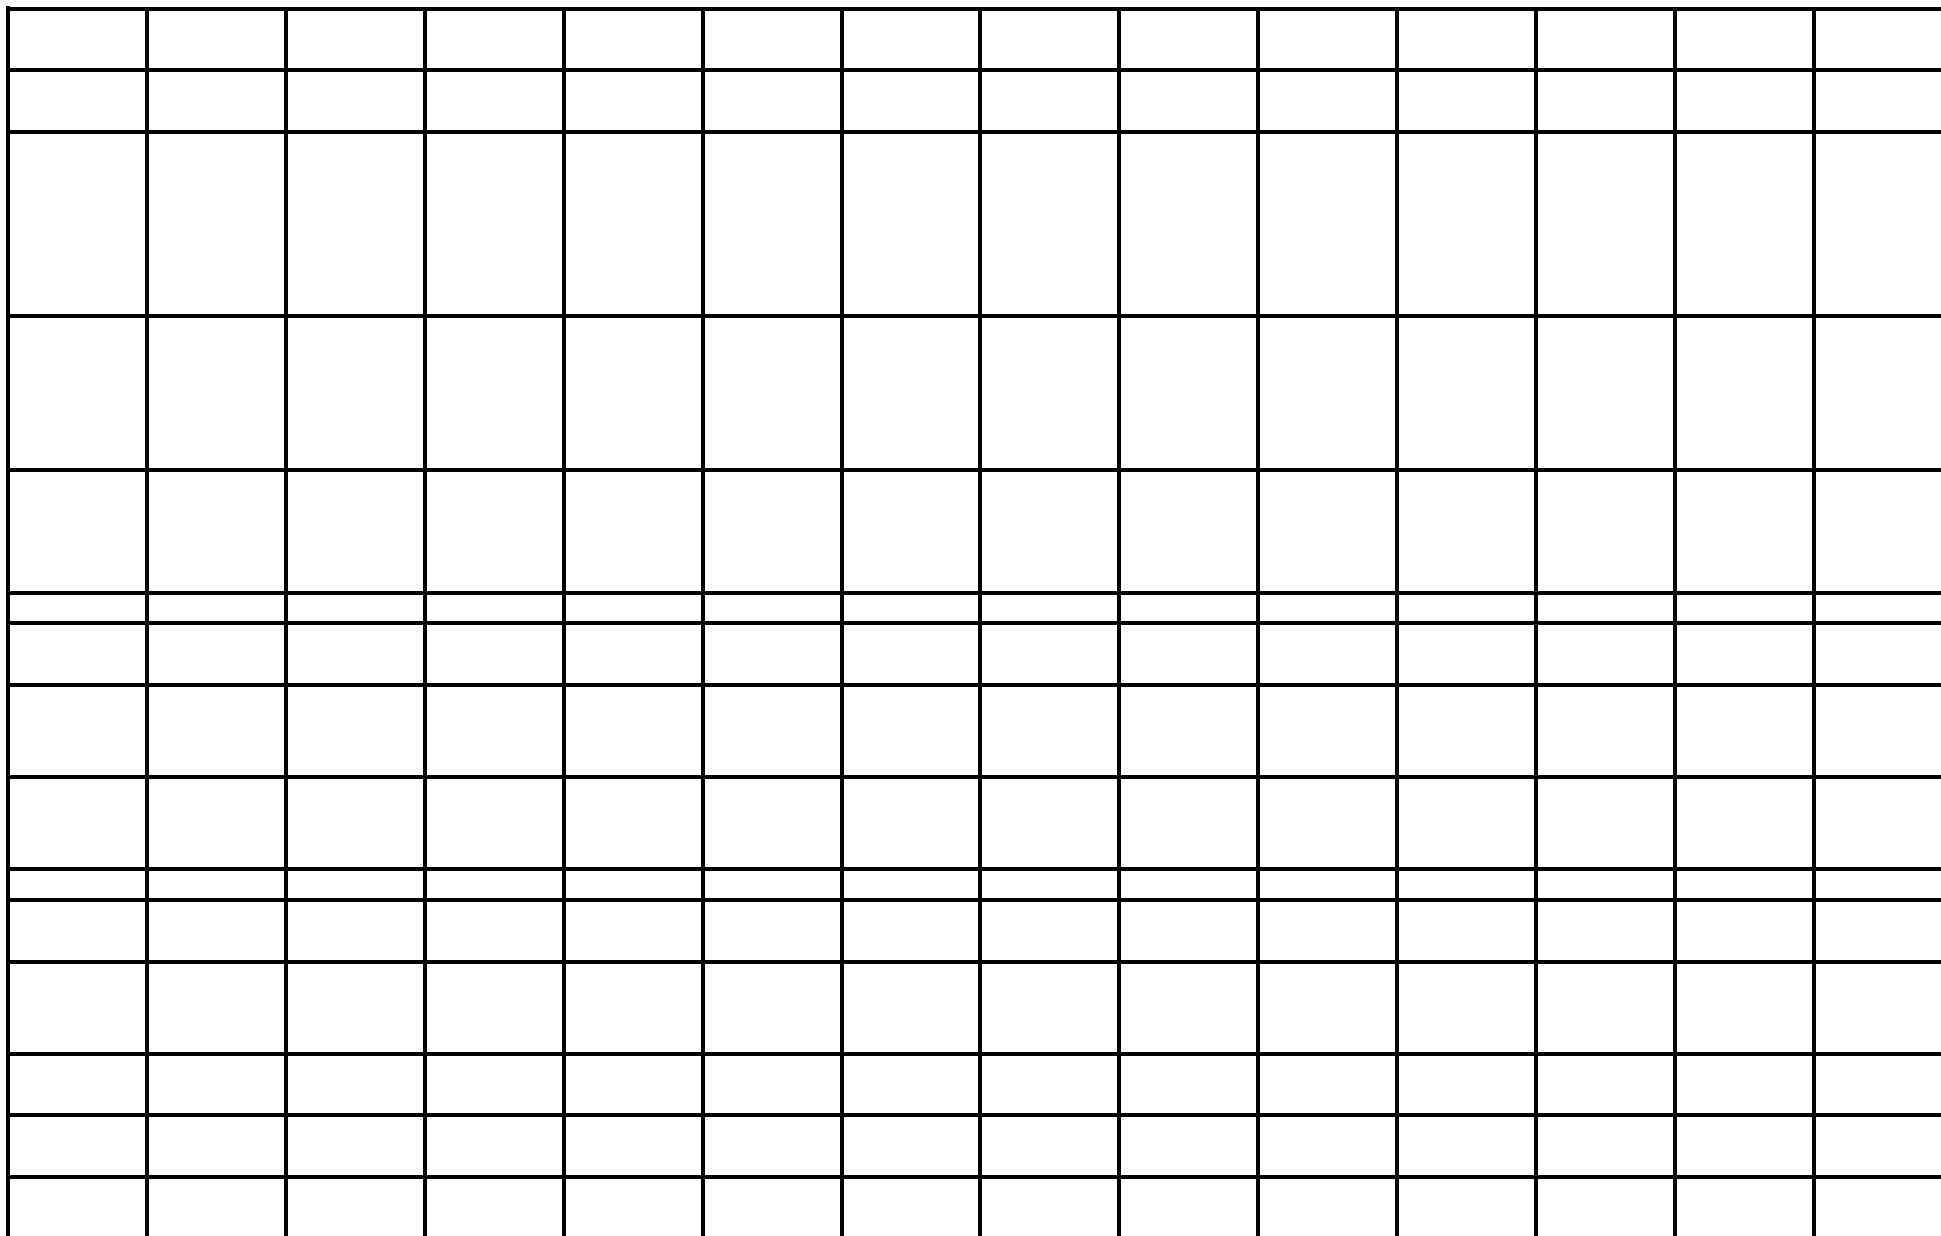

degreaser, pesticide, solvent, cleaner	Benzene or counterparts thereof					
solvent, cleaner	Benzene or counterparts thereof					
reactive diluent, resin modifier, quick-dry coating, paints, adhesive, construction material, corrosion inhibitor, primer	Benzene or counterparts thereof (the counterparts of benzene are defined by the formula: C_nH_{2n-6})					
additive, deoxidant	Broncho-pulmonary ailments caused by dusts or fumes from aluminium or compounds thereof					
solvent	Butyl alcohol					
molding sand	Carbazole or compounds thereof					
solvent, catalyst, fuel, degreaser	Crude paraffin + Aliphatic or alicyclic hydrocarbons derived from petroleum spirit or petrol					
pesticide, electroplating agent, hardener, reagent, cleaner, extracting agent, intermediate, depressant, dye, chelating or sequestering agent, heat-treating agent, stripping agent, warfare agent	Cyanides and compounds thereof					
solvent, cleaner	Encephalopathies or polyneuropathies due to organic solvents					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
construction material, filler, adhesive, stopping material	Encephalopathies or polyneuropathies due to organic solvents					
vulcanization accelerator, adhesive, process regulator	Encephalopathies or polyneuropathies due to organic solvents					
plasticizer, solvent, aircraft lubes, hydraulic fluid, softener, lubricant, additive, filler, adhesive, construction material, reprographic agent, paints, moulding compound, joint-less floors, hardener, transmission medium, caulking compound	Encephalopathies or polyneuropathies due to organic solvents					
plasticizer, heat sealer, modifier, finishing agent, process regulator, adhesive, reprographic agent, filler, hardener, inks, curing agent, stopping material	Encephalopathies or polyneuropathies due to organic solvents					
solvent, denaturing agent, intermediate, plasticizer, pesticide, dispersing medium, dye carrier, softener, odour agent, cleaner, absorbent, cosmetics, surface treatment, pharma, welding agent	Encephalopathies or polyneuropathies due to organic solvents					

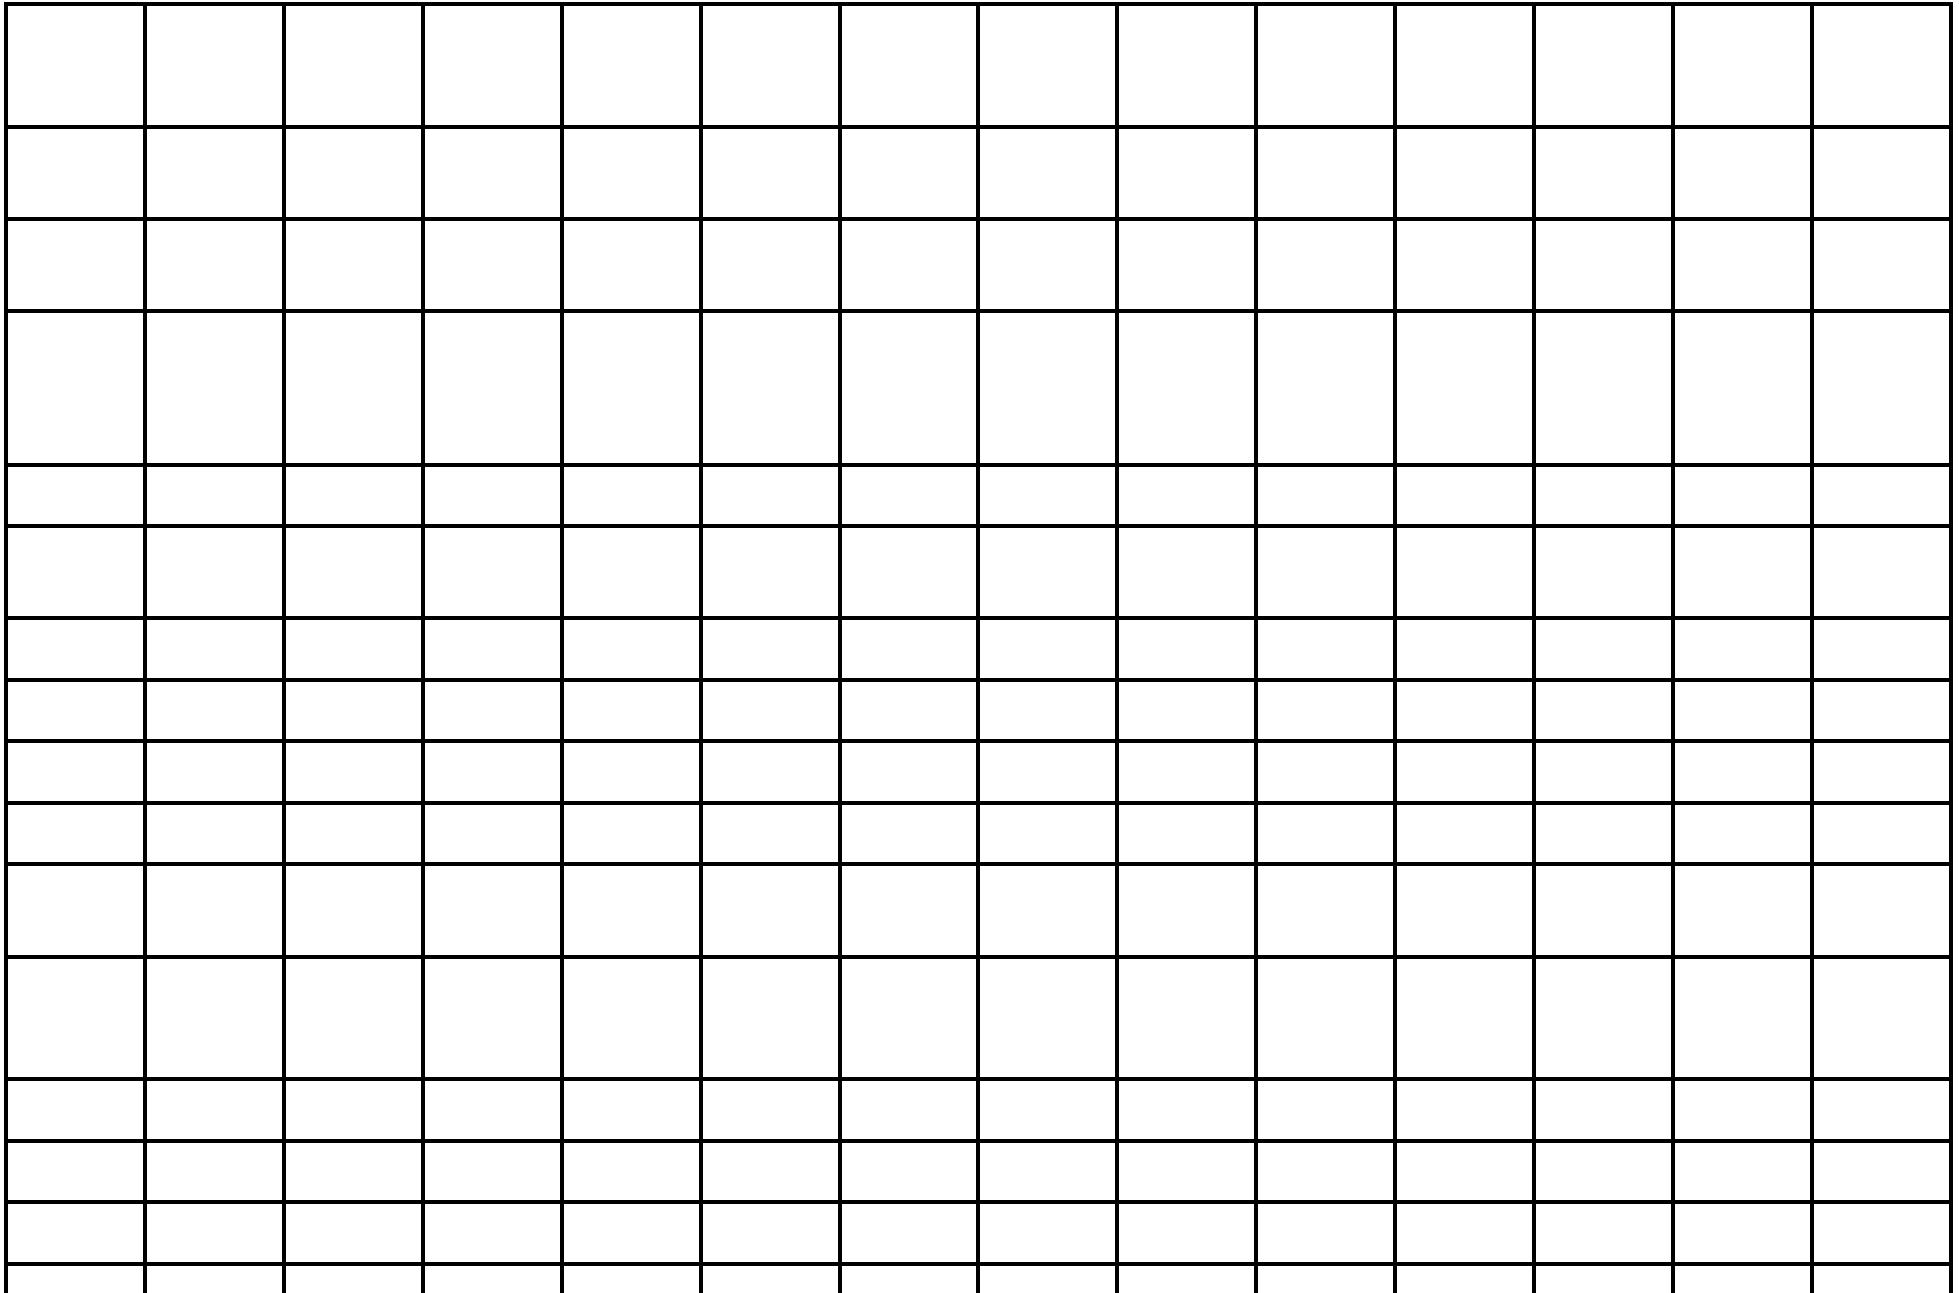

solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent	Encephalopathies or polyneuropathies due to organic solvents					
solvent, pesticide, cleaner	Encephalopathies or polyneuropathies due to organic solvents					
pesticide, solvent	Encephalopathies or polyneuropathies due to organic solvents					
process regulator, paints, adhesive, filler, surface treatment, bleaching agent, reagent, oxidizer, cleaner, pesticide, primer, polishing agent, intermediate, cosmetics, catalyst, protective chemical, pharma, polymerization promoter, starch modifier, flour-maturing agent, desizing of textiles, reducing agent	Esters or their halogenated derivatives					
flavoring agent, pharma, additive, aroma booster	Esters or their halogenated derivatives					
pesticide, bleaching agent, dye, cleaner, tanning agent, purifier, disinfecter, reagent, anti-infective, antiseptic, astringent, deodorant, purifier, descaling and desmutting agent, sanitizer, disinfectant, destainer	Esters or their halogenated derivatives					
electronic equipment, insulators, potentiometers, circuit boards, diluent, dye carrier, sealant, paints, impregnant, plasticizer, stabilizer, cross linking agent, surface treatment, solvent	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
food agent, pesticide, corrosion inhibitor, textile auxiliar	Esters or their halogenated derivatives not referred to under heading 1.122 of Annex I					
pesticide, food agent, intermediate, pharma	Ethers or their halogenated derivatives not referred to under heading 1.120 of Annex I					
solvent, intermediate, cleaner, lubricant, additive, corrosion inhibitor, antiadhesive agent, pharma, paints, insulating material, base oils, degreasers, activator, reagent, stripper	Ethers or their halogenated derivatives not referred to under heading 1.120 of Annex I					
construction material, adhesive, paints, filler, surface treatment, anti-static agent, intermediate, reagent, reprographic agent, solvent, viscosity adjustor, moulding compound, joint-less floor, casting material, curing agent, binder, hardener, dispersion agent	Ethers or their halogenated derivatives not referred to under heading 1.120 of Annex I					

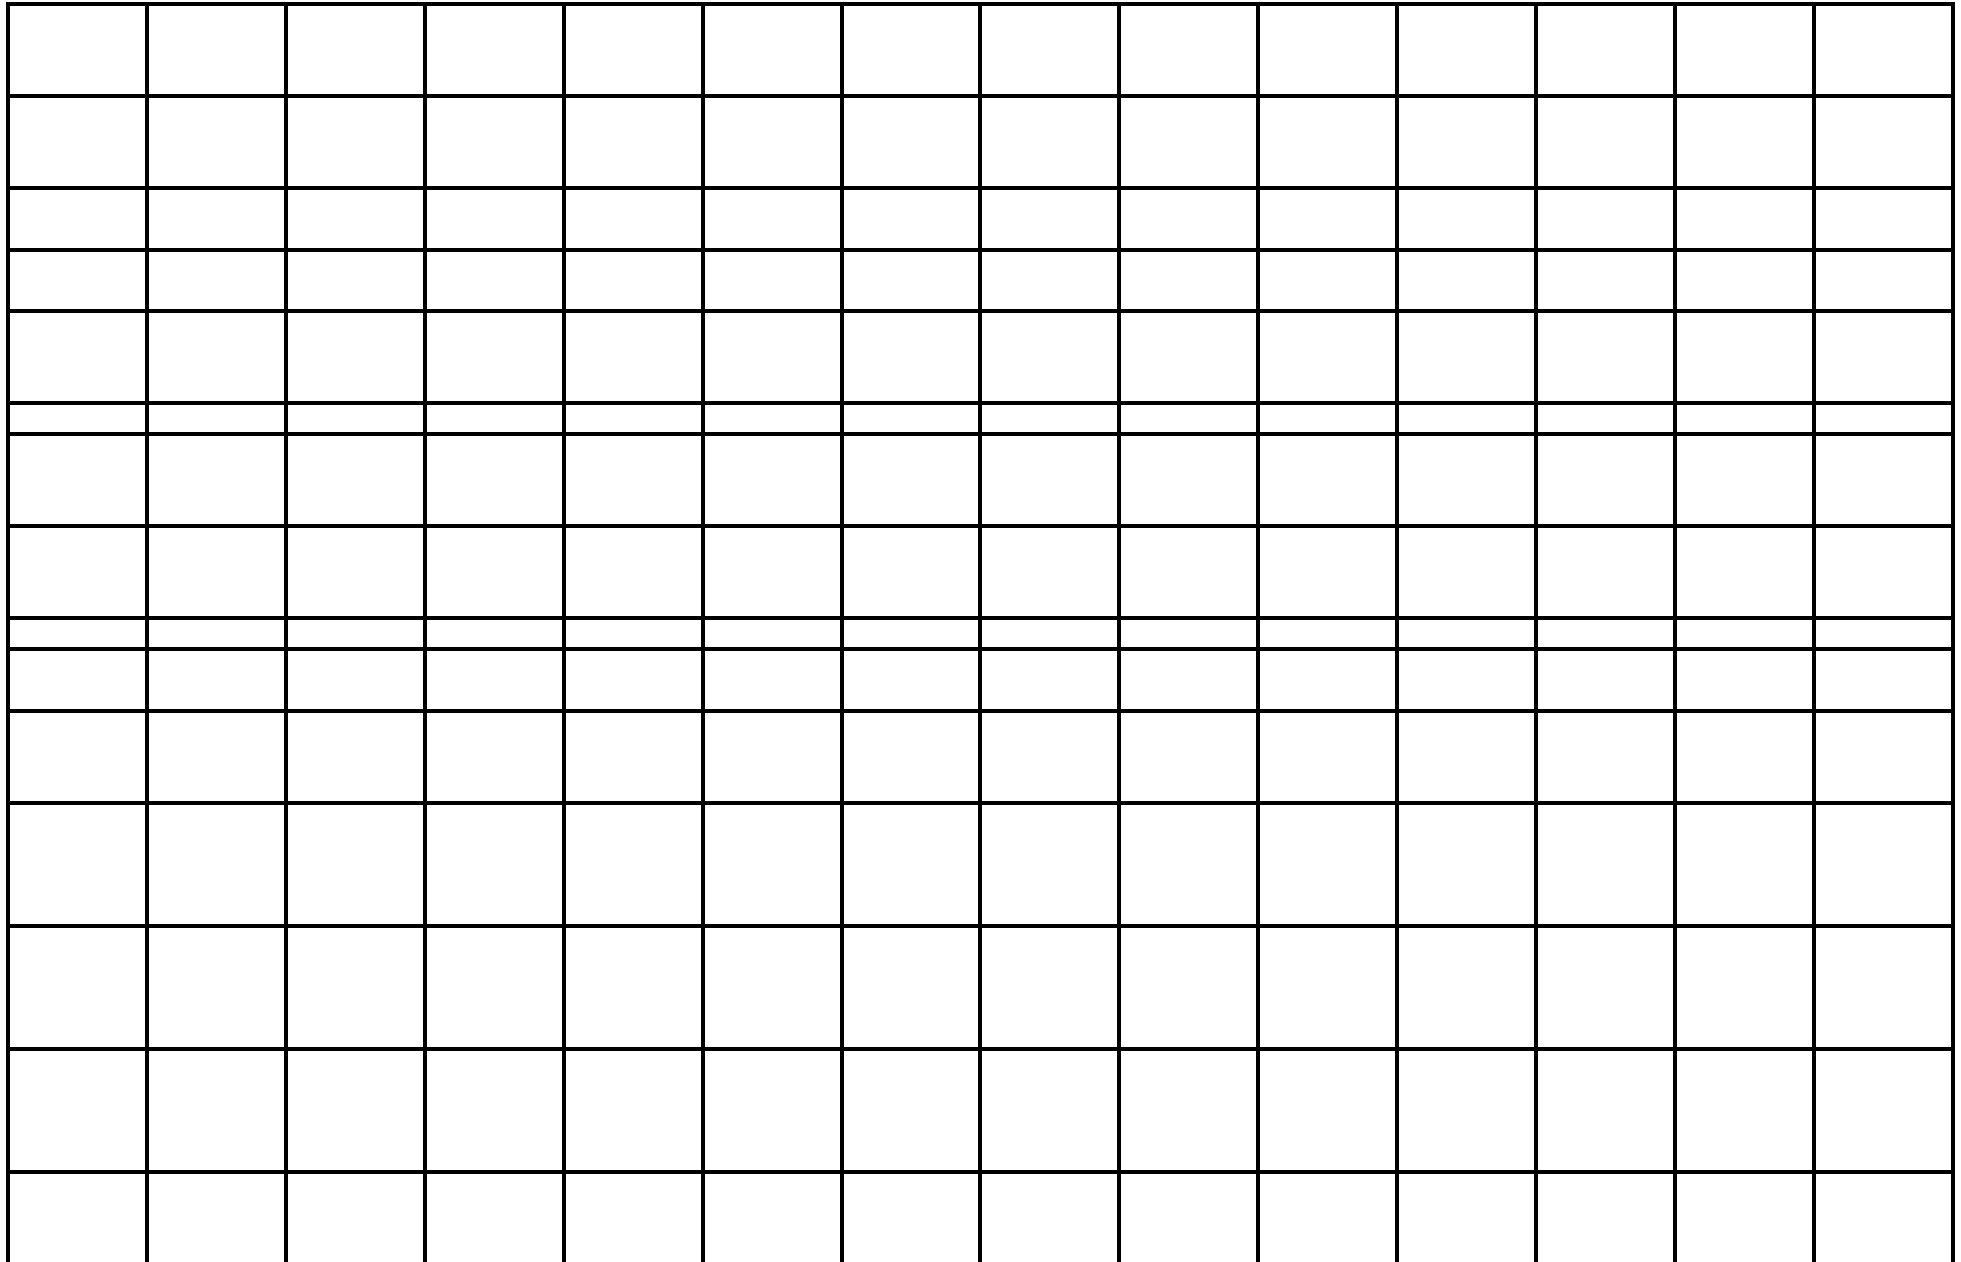

antifreeze, adhesive, adjuvant, varnish, solvent, cleaner	Ethylene glycol					
solvent, catalyst, pesticide	Fluorine or compounds thereof + Halogenated derivatives of the aliphatic or alicyclic hydrocarbons					
cutting fluid	Hydrogen sulphide					
pesticide, pharma, catalyst, reagent, disinfectant, intermediate	Iodine					
coating agent, process regulator, construction material, paints, adhesive, filler, reprographic agent, surface treatment, intermediate, hardener, joint-less floor, curing agent, inks, dispersion agent, primer	Isocyanates					
pesticide, cutting fluid	Isocyanates					
lubricant, solvent, disinfectant, pesticide, degreaser, cleaner, coating	isopropyl alcohol					
fixative agent, flavoring agent, polymerization inhibitor, paints, cosmetics, intermediate, photoinitiator, fragrance enhancer, curing agent, additive, reprographic agent, cleaner, surface treatment, process regulator, filler, solvent, activator, colouring agent, polishing agent, catalyst, primer	Ketones or their halogenated derivatives					
cleaner, odour agent	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
solvent	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
food agent, pesticide	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
pesticide, paints, solvent, viscosity adjustor, buffer, reducing agent, stabilizer, impregnation material, corrosion inhibitor, surface treatment, filler, colouring agent, fuel additive, insulating material, cleaner, preservative, tightening material, anti-siccative, dryer, enamel, antiskinning agent, caulking compound, catalyst, protective chemical	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					
pesticide, solvent, paints, adhesive, cleaner, filler, colouring agent, softener, surface-active agent, cutting fluid, construction material, process regulator, impregnation material, absorbent, viscosity adjustor, antiadhesive agent, corrosion inhibitor, photochemical, anti-condensation agent, fixing agent, odour agent, reprographic agent, softener, complexing agent, rinsing agent, polishing agent, cooling agent, adhesive, hardener	Ketones or their halogenated derivatives not referred to under heading 1.121 of Annex I					

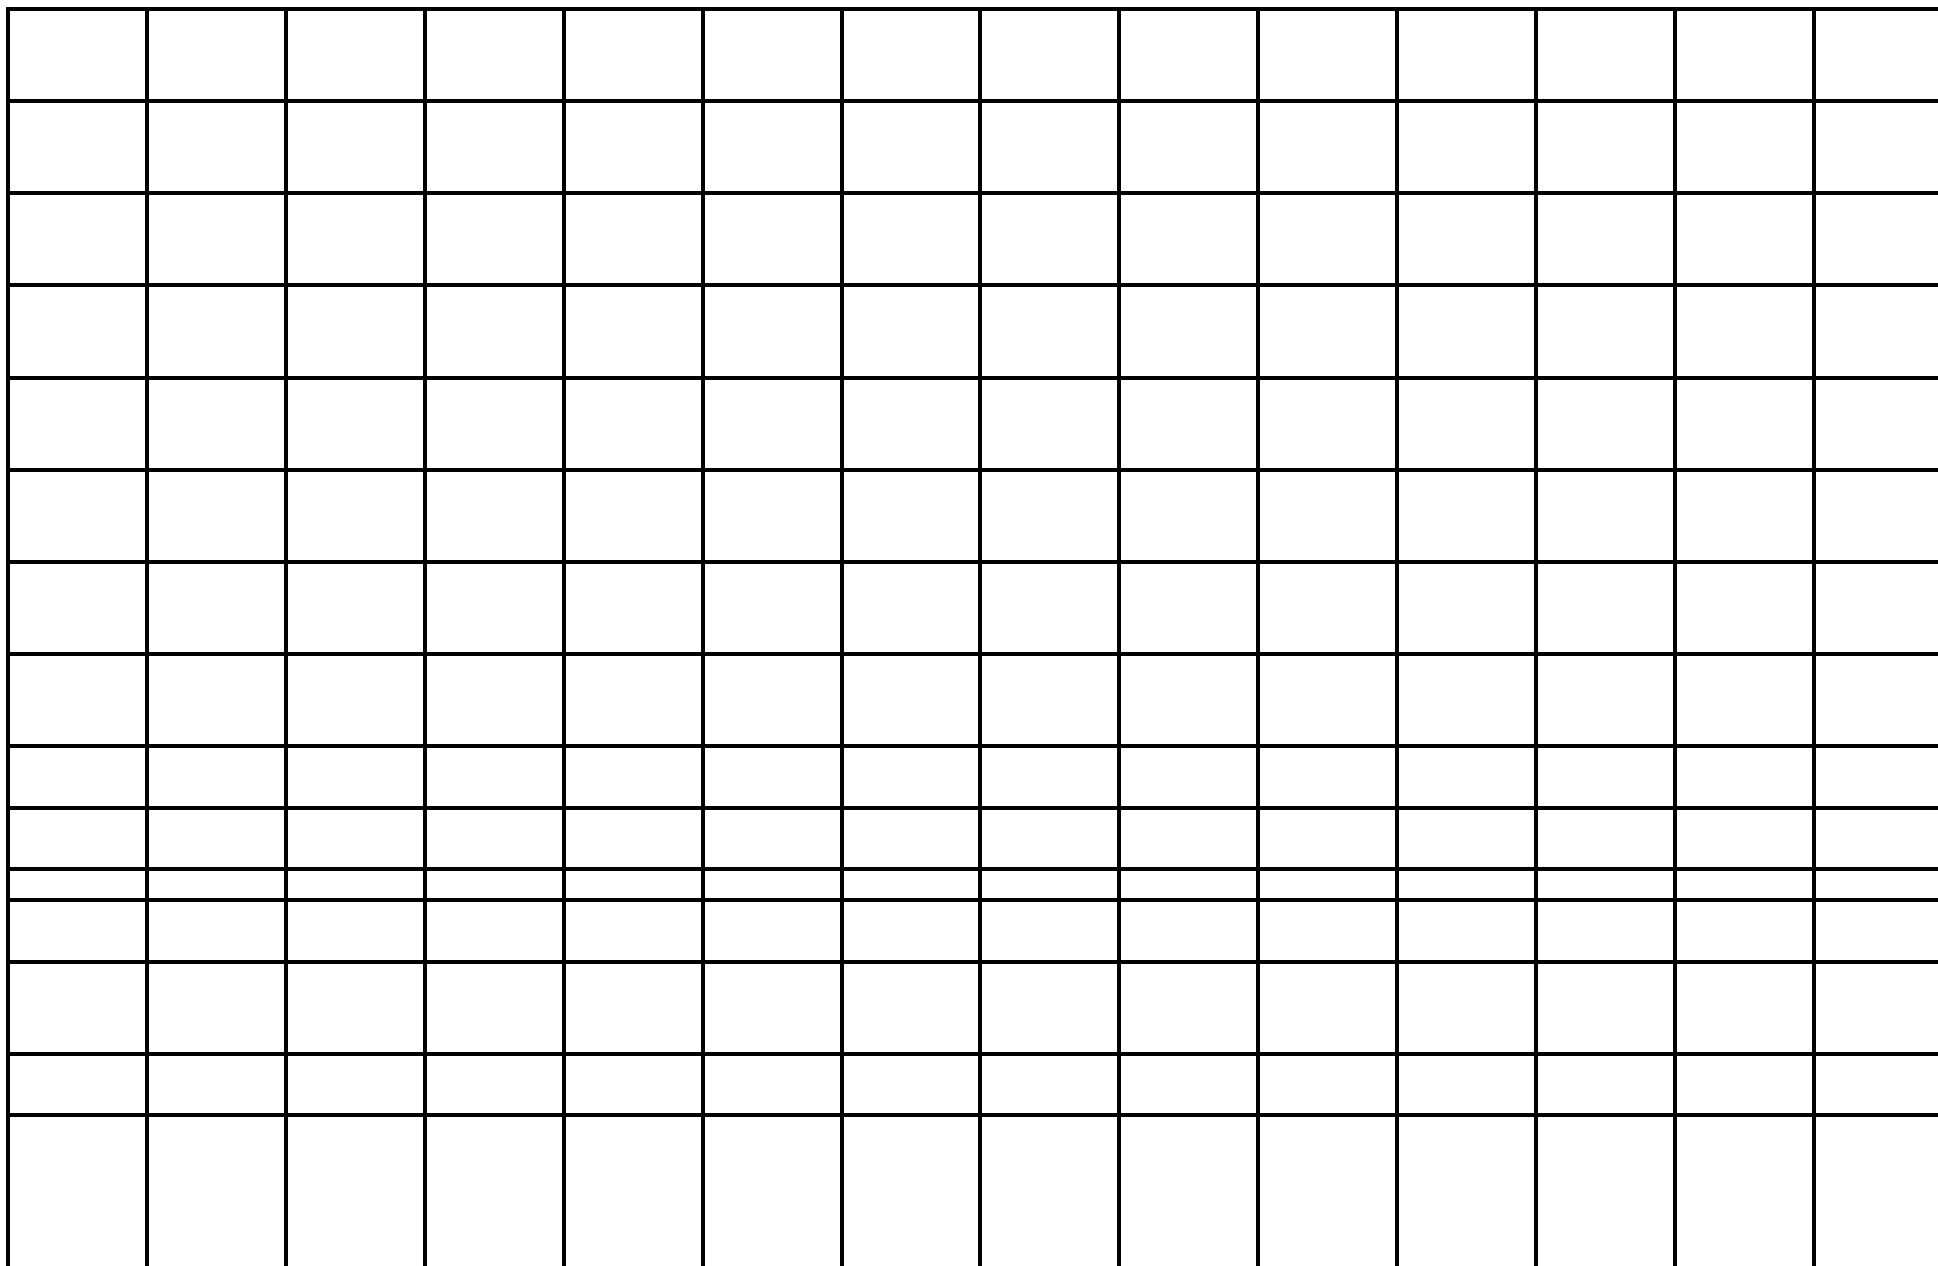

fertilizer, disinfectant, bleaching agent, reagent, drier for oils, oxidizer, decolorizer, alloying agent, desulfurizing agent, deoxidizer, intermediate, welding agent, corrosion inhibitor, adhesive, surface treatment, filler, cooling agent, cleaner, process regulator, construction material, adhesive, paints, colouring agent, conductive agent, pharma, electric and electromechanical component, tightening material, flooring material, curing agent, pesticide, primer, stopping material, hardener, additive, ceramic material, catalyst, impregnation material, cement ceramic material, precipitant, dyer, boiling oil, food agent	Manganese or compounds thereof					
disinfectant, degreaser, stripper, preservative, pesticide, adjuvant, solvent, cleaner	methyl alcohol					
degreaser, solvent, cleaner	methyl ethyl ketone					
coating agent, cleaner, degreaser, pesticide, adjuvant, solvent	Mineral and other oils					
adjuvant, adhesive, pesticide, paints, welding agent, colouring agent, filler, surface treatment, corrosion inhibitor, cleaner, impregnation material, flux agent, intermediate, solvent, viscosity adjustor, reprographic agent, polishing agent, tightening material, lubricant, pharma, additive, dispersion agent, hardener	Mineral and other oils					
additive, oxidant	Nitrated derivatives of aromatic hydrocarbons					
flavoring agent, intermediate, m of non-metallic mineral products, manufacture of radio, television and communication equipment	Organic acids					
reagent, intermediate, construction material	Organic acids					
cleaner, adhesive, filler, surface-active agent, paints, reagent, buffer, pharma, filler, photochemical, impregnation material, pesticide, intermediate, tightening material, primer, disinfectant, sealer, resin, hardener	Organic acids					
flame retardant	Organophosphorus esters					
colouring agent, surface-active agent, cleaner, paints, fuels, polishing agent, textile auxiliar, antifoaming agent, absorbent, dispersion agent, degreaser	Organophosphorus esters					
reagent, pharma, lubricant, additive, indicator, oxidizer, propellant	Oxides of nitrogen					
pesticide, enhancing agent, disinfectant, preservative	Phenols or counterparts or halogenated derivatives thereof					
hardener, toughner, elasticity and tensile strength agent, electric equipment, welding agent, filler, corrosion inhibitor, food agent, intermediate, reagent	Pulmonary fibroses due to metals					
abrasive	Respiratory ailments caused by the inhalation of dust from tin					
pesticide, accelerator, corrosion inhibitor, additive	Thioalcohols					
pesticide, flavor, fragrance, intermediate						

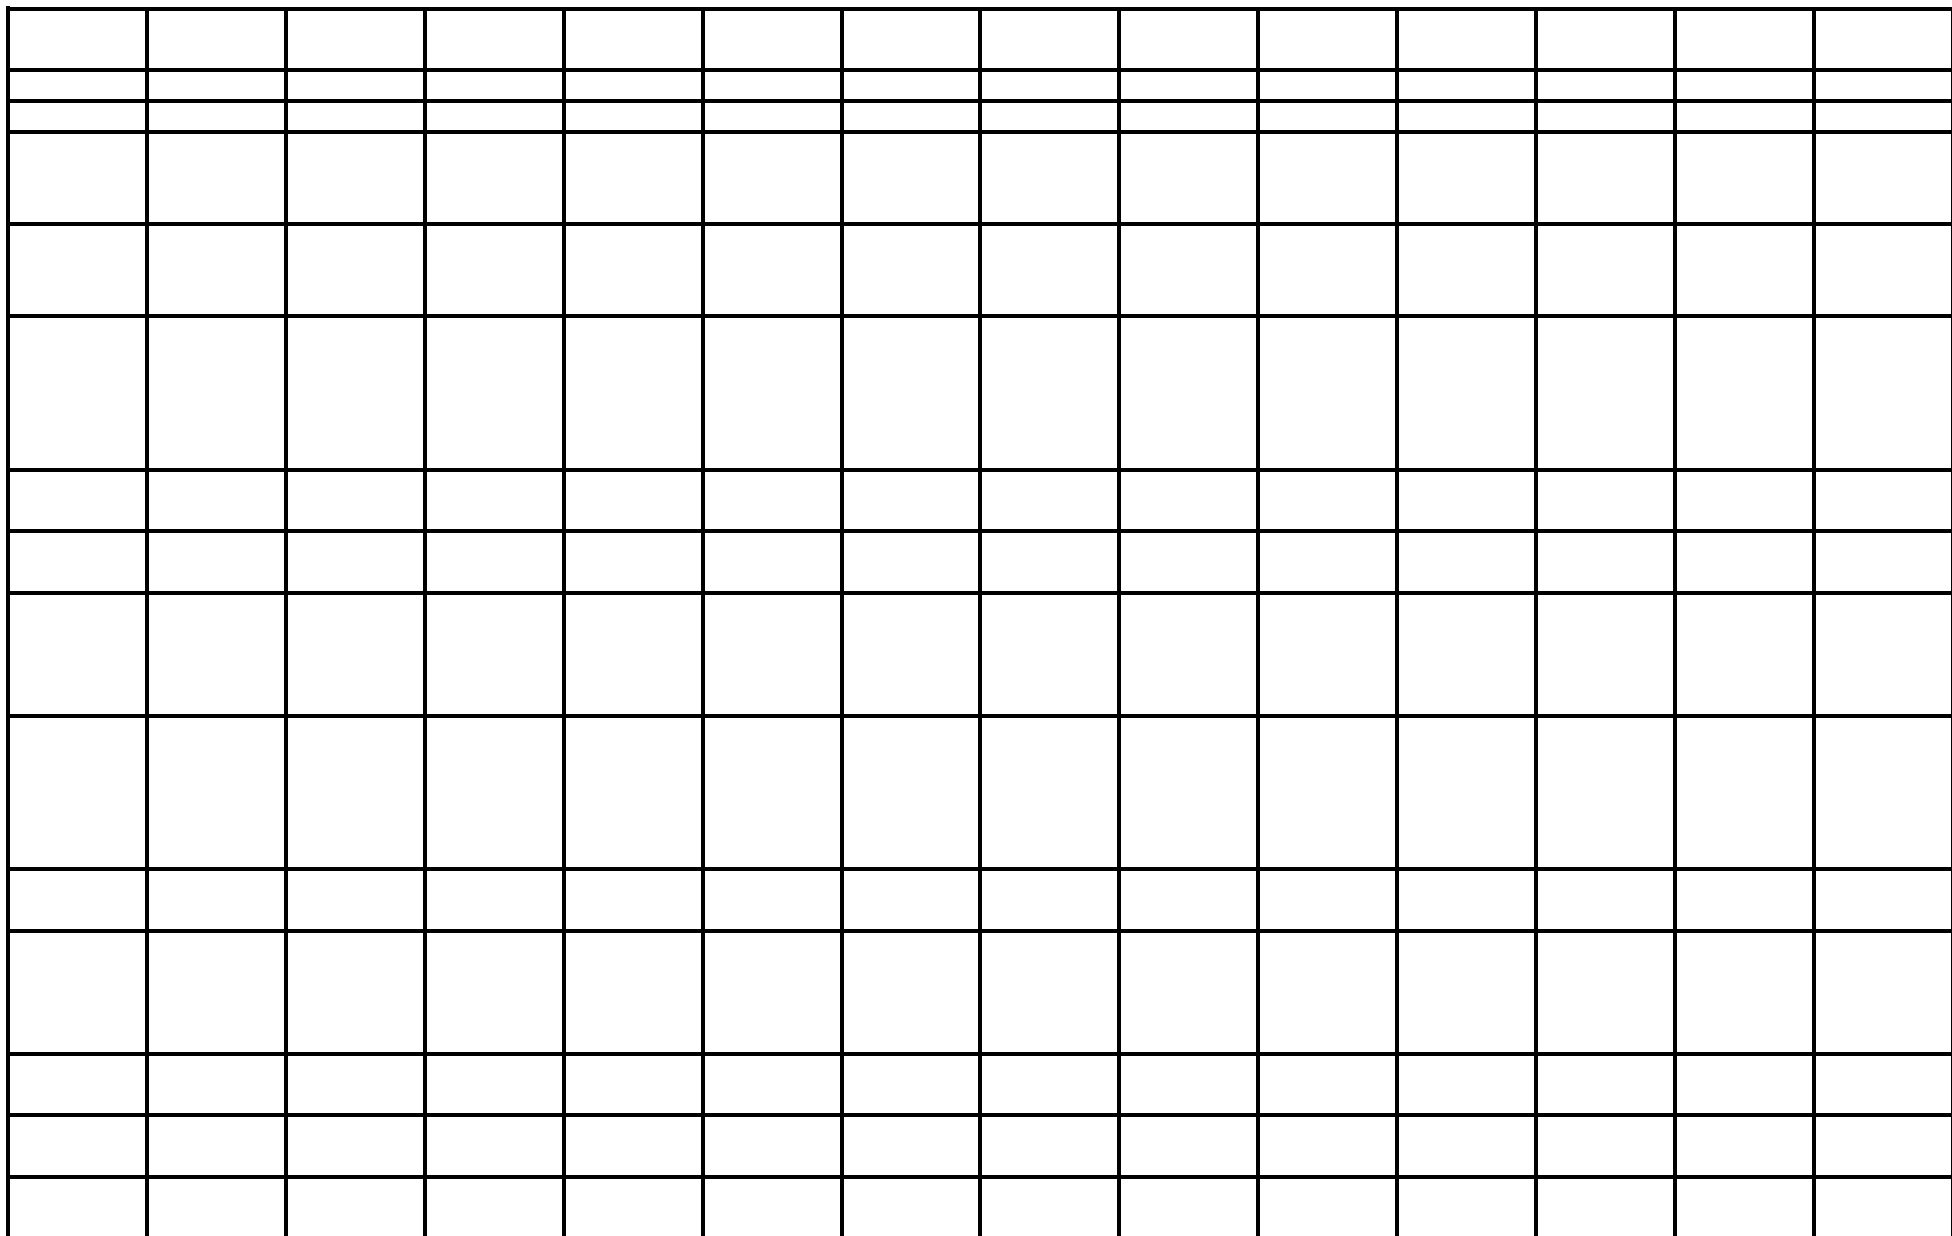

pesticide, process regulator						
solvent, pharma, intermediate						
rubber accelerator, vulcanizer, disinfectant, pesticide, pharma, process regulator, reagent						
vulcanisation accelerator, booster, adhesive, process regulator, intermediate						
pesticide, intermediate, stabilizer, reagent, preservative, propellant, retarder, preventer of coagulation, decomposer						
intermediate, diluent, degradation inhibitor, adhesive, paints, construction material, filler, surface-active agent, reprographic agent, colouring agent, solvent, impregnation material, corrosion inhibitor						
detergent, fragrance, cosmetics, cleaner, surface treatment, pesticide, absorbent, aerosol propellant, polishing agent, cleaner, repellents and attractant						
pesticide, condiment, gelatin, intermediate, flavor, acidulant						
disinfectant, pesticide, preservative, cleaner						
process regulator, paints, adhesive, colouring agent, viscosity adjustor, heat transferring agent, curing agent, hardener						
solvent, intermediate, adhesive, colouring agent, paints, surface treatment, absorbent, construction material, flame retardant, reprographic agent, photochemical, process regulator						
pesticide, accelerator, retarder						
accelerator for rubber vulcanization, adhesive, intermediate, fertilizer, colouring agent						
pesticide, intermediate, additive, preservative						
pesticide, paints, impregnation material, wood preservative						
cleaner, pesticide, conductive agent, preservative, disinfectant, pharma, cosmetic						
food agent, pesticide						
paints, catalyst, pesticide, additive						
cleaner, food agent, process regulator, softener, pesticide, surface-active agent, catalyst, spot (stain) remover, detergent, disinfectant, reagent, pharma						
process regulator, food agent, catalyst
