

Foyer nieuwsbrief internationaal (Verzending datum: 22/02/2011)

Welcome to Foyer's International Newsletter, January-February 2011

The second edition of Foyer's International Newsletter focuses on games and recreation: from playful learning with multilingual board games to insightful role-play and a hands-on bicycle course. And since all play and no work might be too much of a good thing, we finish off with a training course that simulates a work environment.

Wordplay!

Foyer launches "Lego Lingua", a multilingual game box
