### 1st European Environmental Evaluators Network Forum

9-10 February 2012

Addressing demand side expectations, side effects and methodological challenges of environmental evaluation in an era of performance-based management

Organised on an annual basis in the United States since 2006 and Canada since 2008, HIVA will host the 1st European Environmental Evaluators Network (EEEN) forum. The objective of the forum is to advance the field of environmental evaluation, which we define as environmental policy and programme evaluation, through more systematic and collective learning among evaluators and evaluation users.

The EEEN welcomes evaluators and users of evaluation from all relevant fields (including climate change and adaptation, biodiversity conservation, environmental education, energy, air and water quality, waste, land and fisheries management, sustainable consumption and production, behaviour change, ecological restoration, etc.) working in academia, government agencies, consulting firms, non-governmental organisations, European and international institutions and companies to join the network and take part in the forum.

**Social Sciences Campus, Parkstraat 71, 3000 Leuven, Belgium**
