

We had been ready to start this new year with a statement on our projects and advocacy work, instead we have all been hit by the tragedy happening in one of the poorest countries of the world: Haiti. Tens or hundreds of thousands of victims have been killed or injured and those who survived now need access to water, food and shelter. SOLIDAR expresses its solidarity with the victims of the earthquake.

This earthquake is one in a series of natural catastrophes which has hit the country and is a disaster for a developing country - one of the poorest countries in the world - where more than 70% of the population lives under the poverty line and where corruption and political instability are the other major threats..

We invite you to send your donations in support of the situation in Haiti to the **Haiti Emergency Support Fund** set up by SOLIDAR. These funds will be used to support the actions of our members and partners providing assistance in the field. Several SOLIDAR member organisations are active in the country and will be carrying out emergency relief projects to mitigate the effects of this terrible disaster, amongst which [Asamblea por la Paz](#), [ISCOS](#), [Solidaridad Internacional](#), [Solidarité Laïque](#), [Solidarité Syndicale Luxembourg](#) and [Volkshilfe Austria](#).

It is now time to act and show solidarity with the Haitian population,

Conny Reuter, Secretary General
